WEBSITES

NIC Mississippi only works with Mississippi government. Because of this, we are able to offer a broad range of services for your agency. We provide a comprehensive approach, seamlessly integrating all aspects of licensing, registration, payments, billing, reporting, and much more.

The word "vendor" is not in our vocabulary – we're your eGovernment partner. We work with our government partners to develop tailored solutions designed with efficiency and ease in mind. Working with NIC Mississippi means you get more than just another vendor. You get a new teammate.

AWARDS

Services build by NIC Mississippi have garnered over one hundred and twenty national awards for the State of Mississippi:

Government Technology
Overall State Government Experience Award

NASCIO
Emerging and Innovative Technologies Award

StateScoop50 Awards
State IT Innovation of the Year

SELF-FUNDED MODEL

NIC Mississippi's business model is based on a self-funded approach where we build the majority of our services at no up front cost. In exchange, we receive an eGovernment transaction amount paid by the end user.

This self-funded business model allows the State of Mississippi to provide a wealth of eGovernment services without the use of any appropriated tax dollars.

OUR CONTRACT

In December 2010, the State of Mississippi awarded a contract to NIC Mississippi for the development of eGovernment services. Our contract allows NIC Mississippi to develop innovative online services for state agencies, boards and commissions.

As the contract was competitively bid through the State's procurement process, all government entities can engage NIC Mississippi for the development of innovative services without needing to issue new RFPs. The primary goal of NIC Mississippi is to keep the state of Mississippi on the forefront of technology and help provide a more efficient method for citizens and businesses to obtain information and access services.

INNOVATION

NIC Mississippi embraces technology and is committed to developing trailblazing services, placing citizens at the center of government.
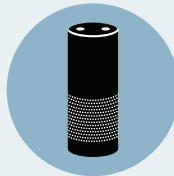

We have built and launched several services that have helped make Mississippi a nationwide leader in cutting edge technology.

Chatbots

Virtual Reality

Voice Assistants

Auto-Renewing Licenses

SECURITY & EFFICIENCY

Protecting citizen information is our number one priority. With the backing of a robust security team, we managed against security threats in FY 2020 with:

198 Application Scans

11 Security Audits

Our self-funded model provides for a significant cost avoidance for Mississippi agencies. Cost saving over our the life of our contract include:

$13.8 million cost avoidance since 2010

$2.2 million cost avoidance in FY2020 alone
